

# Highway SUV Tyres

## **EFFICIENTGRIP PERFORMANCE SUV**

Designed for luxury highway SUVs delivers further enhancements building from its recommended predecessor.

### **FEATURES & BENEFITS**

QuietTred Technology

Advanced noise dampening tread design lowers noise generation

FlexContact Technology

Reduces tyre vibrations, offering a more comfortable drive

New Innovative Polymers

Increased grip in wet road conditions

Reinforced & Robust Construction

For durability on every road for a fulfilling and invigorating drive

## **WRANGLER TRIPLEMAX**

For enhanced durability and resistance against a variety of road hazards

### **FEATURES & BENEFITS**

Customised Polymer Tread Compound

Provides exceptional braking and grip in wet conditions

Road Hazard Resistant

For enhanced durability and resistance against a variety of road hazards

## **OPTILIFE SUV**

Goodyear's OptiLife SUV is designed specifically to be longer lasting without compromising comfort and performance.

### **FEATURES & BENEFITS**

Enhanced tread block arrangement

Delivers progressive road contact & helps minimise road noise for a quieter ride

Optimised Cavity and matching 5 rib tread pattern design

Enhances pressure distribution and road contact for improved braking performance and comfort

Radial fine grooves and sipes design

Improved handling and on road traction capability TredLife Technology Wider tread profile with a carbon base delivers longer lasting tread.

## **FORTERA**

Developed to suit Australasia's varied road conditions, these 4WD tyres are fitted as original equipment to the Ford Territory 4WD.

### **FEATURES & BENEFITS**

High Percentage Silica Compound

Outstanding traction and shorter braking distances in wet conditions

Spiral Overlay Construction

Improves steering response and braking efficiency

Traction-orientated tread design

Impressive traction in sand and mud

High Strength Body Plies

Better resistance to punctures in off-road conditions

## **EFFICIENTGRIP SUV**

Command the road and control the noise with Award Winning QuietTred Technology. Winner Choice Magazine best SUV tyre 2016.

### **FEATURES & BENEFITS**

QuietTred Technology

Captures less air and produces lower noise generation for a very quiet ride

High Grip Design

Improves cornering and reduces wet braking distances

Responsive Tread & Carcass Design

Provides a very responsive structure encouraging crisp handling Fuel Efficient Construction Silica blend

compound reduces friction for lower fuel consumption

## **INTEGRITY**

You'll enjoy exceptional handling on most driving surfaces, with outstanding performance in the wet, with the Goodyear Integrity.

### **FEATURES & BENEFITS**

High Percentage Silica Compound

Outstanding traction and shorter braking distances in wet conditions

Spiral Overlay Construction

Improves steering response and braking efficiency

Specially Developed Cavity Shape

Stronger cornering and highway speed stability

Tuned for Australasian conditions

Highly developed specification for our varied road conditions

Provides stable handling at higher speeds

### **EAGLE F1 ASYMMETRIC 3 SUV**

A light, steady ultra high-performance tyre that delivers shorter braking distances in rainy or dry conditions.

#### **FEATURES & BENEFITS**

Active Braking Technology

Delivers shorter braking distances on dry & wet roads

Grip Booster Technology

Provides excellent grip for enhanced braking and handling

Optimised construction technology

### **WRANGLER HP ALL WEATHER**

Looking for a pleasurable city drive? Featuring SmartTRED Weather Reactive Technology, these SUV tyres can adapt to varied climates.

#### **FEATURES & BENEFITS**

Silica Compound

Outstanding traction and shorter braking distances in wet conditions

SmartTRED Weather Reactive Technology

Adapts to road & weather conditions for traction and stability

SilentBlock Design

Delivers progressive road contact & helps minimise road noise for a quieter ride

## **EAGLE LS2**

A quality performance tyre for SUVs for a smooth, quiet ride and all-weather handling.

### **FEATURES & BENEFITS**

Wide Circumferential Grooves

Helps efficiently evacuate water from beneath the tread

Superior Sidewall

Premium sidewall styling offers a contemporary appearance

Tread Block

Ensures a smooth, quiet ride

## **ASSURANCE CS FUELMAX**

Confident traction in changing weather conditions

### **FEATURES & BENEFITS**

Fuel Saving Tread Compound

Low intra-molecular friction resulting in a fuel saving tread compound

Optimised construction

Delivers your tyres with added protection against road hazards

Even Tyre Pressure Distribution

Reducing frictional energy at the tread surface

## **EAGLE F1 ASYMMETRIC 2 SUV**

The Goodyear Eagle F1 Asymmetric 2 SUV tyre has been developed for advanced high-performance crossover and sport utility vehicles.

### **FEATURES & BENEFITS**

#### Active Braking Technology

Combining a 3 Dimensional Block Design and Advanced Racing Derived Compound increases the road contact under braking conditions, providing shorter stopping distances on wet and dry roads.

#### Lower Tyre Weight

Reduces the vehicle's unsprung mass the same way alloy rims do vs. steel rims, to enable the

tyre to follow the road's surface contours more closely, improving steering precision and dry handling.

#### Fuel Saving Technology

Less material in the tyre and lower heat generation reduces rolling resistance, which can help to reduce fuel consumption and save you money." ,,,,"The Goodyear Eagle F1 Asymmetric 2 SUV tyre has been developed for advanced high-performance crossover and sport utility vehicles.,"The Eagle F1 Asymmetric 2 SUV's tread compound combines Goodyear race traction resins for dry grip, high surface silica for wet traction and high molecular weight polymers to optimise tread stiffness. ActiveBraking Technology 3-dimensional tread element designs increase surface contact with the road to reduce stopping distances during heavy braking, while its wide circumferential grooves disperse water from the tyre footprint. OE of choice for the Porsche Macan and Audi Q7.

## **EAGLE F1 ASYMMETRIC SUV**

If you drive a high-end vehicle, you'll appreciate this performance car tyre from Goodyear.

### **FEATURES & BENEFITS**

#### Active Cornergrip Technology

Result is high performance and enhanced control

#### Racing Compound Technology

Tread stiffness is optimised to provide better tracking & grip

#### Asymmetric Tread Design

Delivers superior control & comfort for a quiet and secure ride

## **EAGLE RS-A**

A premium SUV tyre developed for manufacturers that delivers superb handling and traction.

### **FEATURES & BENEFITS**

Asymmetric Tread Design

Helps provide enhanced traction, superb cornering and a quiet ride

Shoulder Tread Blocks & Wide Lateral Grooves

Offers the driver confident handling in all conditions

## **WRANGLER HP**

The Wrangler HP has a number of innovative features that focus on aspects of noise, comfort and safety.

### **FEATURES & BENEFITS**

Symmetrical Tread Design

Responsive handling in dry conditions

Wide Circumferential & Lateral Tread Grooves

Resist hydroplaning for all weather grip

Twin Steel Belts

Boost handling and high speed capability

## **WRANGLER HT**

Distinctive multi-purpose tyre capable of handling varied terrain and applications.

### **FEATURES & BENEFITS**

All-Season Traction

Patented, all-season tread design helps provide year-round traction

Wet Traction

Circumferential channels help provide dependable wet traction

Smooth Ride

Solid centre rib offers a smooth ride, long life, and even treadwear

## **WRANGLER SR/A**

Outstanding highway performance for heavy duty utes.

### **FEATURES & BENEFITS**

Zigzag microgrooves

Offer enhanced traction in rain, snow, and ice

TredLock® microgrooves

Provide biting edges for enhanced wet traction and lock together for confident grip in turns

Wide circumferential grooves

Help move water away from the tread for enhanced traction in rain

Exclusive wet traction compound

Helps provide traction on wet roads
