

EVOLUTION TOUR

HIGHWAY TOURING

90% Road & Sand, 10% Dirt & Mud

Competitively priced to fit most general replacement tyre purchases while giving you more mileage and A-rated grip.

Features

5 RIB TREAD PATTERN & LATERAL GROOVES

With 20% more lateral grooves around the circumference of the tyre, gives you improved wet traction.

STABLE EDGE TECHNOLOGY

Keeps the grooves between the tread open, giving you enhanced stability, traction, handling and a better feel for the road.

DURABLE UNIFORM CONSTRUCTION

Is a combination of high density belt wire, high modulus polyester plies and high modulus bead filler, designed to give you a crisp and tight steering response.

TOURING COMPOUND

Specially formulated to give you more mileage without sacrificing grip.

3D MICRO GAUGE SIPING

Allows the tread blocks to interlock, giving you maximum stability, for increased traction, handling and safety, even at half worn.

LATERAL GROOVES

20% more lateral grooves around the circumference of the tyre for improved wet traction.
