

FEDERAL MOTORSPORTS

CIRCUIT SLICK SERIES

FZ-101(S)
FZ-101(M)

1. Advance compounds grant outstanding dry grips.
2. Kevlar reinforced sidewalls ensure optimal roughness and contact patch, plus durability and stability at high speed.
3. Large contact patch areas maximize steering and cornering accuracy.

The FZ-101W rain tyre is designed for maximum water dispersion with superb traction in moist, wet and slippery conditions.

1. Advance compounds deliver high traction on wet surfaces.
2. Uni-directional grooves enhance high-speed stability and traction.
3. Unique V-shaped grooves provide excellent balance between traction and drainage.

GRAVEL RALLY SERIES

FEDERALLY G-10(S/L)(S/R)
FEDERALLY G-10(M/L)(M/R)
FEDERALLY G-11(S)
FEDERALLY T-10(M)

1. Asymmetric tread patterns ensure maximum performance in traction and braking.
2. Rigid structure and dense tread pattern ensure superb stability and lateral grips in fast cornering.
3. Reinforced structure both in the tread areas and sidewalls deliver comprehensive resistance against cuts and chips.

DOT & E-MARK COMPATIBLE

1. Advance compounds and unique asymmetric tread patterns ensure maximum performance in wet or dry conditions.
2. Stiff outer areas grant confident handling at high speed.

Complying with the latest WRC regulation, the asymmetric T-10 offers optimum handling on either dry or wet surfaces, making it ideal for both track day and tarmac rally use.

SEMI SLICK SERIES

The semi-slick FZ-201 delivers the optimal balance of dry/wet traction, consistency, and longevity, making it ideal for time attack, track days, and high performance driving schools.

1. Advance compounds provide consistent performance throughout the life of the tire.
2. Larger shoulder blocks provide continuous contact with the road while maneuvering.
3. Unique L-shaped grooves assist with wet traction.
4. UTQG 40AA
