

MASTERCRAFT TYRE RANGE

The New LSR Grand Touring represents the latest in luxury, all-season touring performance for a wide range of passenger vehicles.

The Mastercraft Courser AXT is a true all-terrain tyre that delivers a progressive 5-rib tread design, off-road capabilities, confident highway control and wear, and balanced all-weather performance.

Aggressive Off-Road Performance

Designed to tackle tough conditions, alternating shoulder scallops provide superior handling and traction to increase off-road traction of the tyre.

Enhanced Stone Drilling Protection

Stone ejector ribs and ramped tread edges help reduce stone retention by dislodging rocks and releasing stones to prevent tyre damage.

Increased Traction

Wider, zig-zag shaped circumferential grooves provide traction and grip in softer surfaces like sand and dirt.

The Avenger G/T is a cosmetic radial tyre available in a subtle black sidewall or an eye-catching raised white letter sidewall that retains the character of the old 'muscle car'.

The A/S IV fits a variety of older vehicles and is available in select white sidewall sizes, perfect for making a statement in your classic car.

Mastercraft Tyres guaranteed to last up to 60,000 kilometres*

American drivers travel long distances on highways and demand a tyre that gives high mileage. That's why Mastercraft tyres are built with deeper, wider tread compared to many original tyres to give you more mileage. Mastercraft Tires' latest high mileage tyre - the Touring LSR - for passenger cars, minivans and small SUV's has a mileage guarantee of 60,000kms Australia wide.

Mastercraft Tyres give you Complete Peace of Mind

You can enjoy peace of mind knowing that great quality tyres are between you and the road every time you get behind the wheel. Mastercraft Tires come with an Australia-wide lifetime replacement warranty against manufacturing faults for the life of the tyre.

Mastercraft Tires still making tyres for Muscle Cars, Hot Rods and Classic Car

During its 100 year history Mastercraft Tires designed tyres to suit the vehicles of the time. Now that many of those vehicles have become today's collectibles Mastercraft Tires has continued to make white wall tyres for Classic Cars and 'fatboy' tyres for Muscle Cars and Hot Rods.
