

AT700 BRAVO

4WD

The Maxxis AT700 is a typical all-terrain tyre with a 70% on-road, 30% off-road combination. Engineered to endure the harsh conditions of the Australian climate and land, it is everything that anybody would want in a 4x4 all-terrain tyre - and more!

FEATURES & BENEFITS

- 1 3D tread blocks ensure excellent tread stiffness, even wear, and high steering stability.
- 2 Multi-pitch tread pattern minimises road noise and ensures excellent off-road performance.
- 3 Four U-shaped circumferential tread grooves ensure excellent hydroplaning resistance and minimised rock retention.
- 4 Staggered shoulder lugs provide extra bite for exceptional off-road traction.
- 5 Optimised sipe design ensures improved wet and dry performance, optimised wear, and excellent mileage.
