

HP5 PREMITRA

UHP

A standard UHP tyre engineered to reduce our carbon footprint, the HP5 was designed to feature the renowned Maxxis handling prowess but with more focus on low rolling resistance technologies. The full silica tread compound and bead filler design helps reduce rolling resistance while maximising ride comfort and wet traction.

FEATURES & BENEFITS

- 1 Ultra-high performance tyre designed for increased comfort with low rolling resistance technologies.
- 2 Advanced silica compound formulated to reduce rolling resistance and improve wet performance.
- 3 Unique bead filler design improves rolling resistance and ride comfort.
- 4 Rib pattern design with four circumferential grooves improves hydroplaning resistance and handling.
- 5 Curved shoulder groove design reduces vibration noise in tread area.
