

The MAZ4S is an all-season UHP tyre designed for superb wet weather performance. It features aggressive directional grooves to channel water away with great efficiency – to ensure ultimate peace of mind when driving in wet weather conditions. The MAZ4S features a robust construction for maximum high-speed stability and driving confidence.

MAZ4S VICTRA

UHP

FEATURES & BENEFITS

- 1 Ultra-high performance all-season tyre designed for drivers who demand sporty handling with all-season traction.
- 2 Solid centre rib designed for high speed stability.
- 3 V-shaped unidirectional grooves for improved handling on dry and wet roads.
- 4 Jointless spiral-wound cap ply maximises ride refinement and durability.
- 5 Four circumferential main grooves expel water for enhanced hydroplaning resistance and wet traction.
- 6 Five pitch tread blocks and 2-in-1 groove design minimises noise for a quiet, comfortable ride.
