

A summer asymmetric UHP designed for premium sporting SUVs, the S-Pro features a water groove design that minimises pipe resonance for a quieter and more comfortable driving experience. The S-Pro also features a new hybrid profile design for maximised road contact and improved overall wear.

S-PRO

UHP

FEATURES & BENEFITS

- 1 Summer Ultra High Performance tyre designed for premium SUVs.
- 2 Patented groove design minimises pipe resonance for a quiet and serene cabin.
- 3 Asymmetric pattern with large outside shoulder blocks for improved handling.
- 4 Four circumferential grooves improve water dispersion for better hydroplaning resistance.
- 5 Hybrid profile design maximises road contact and improves overall tread wear.
- 6 Nano silica-infused compound improves chemical bonds in tread rubber for improved mileage.
